

The background of the entire image is a dense, repeating pattern of irregular, rounded shapes in various shades of teal and blue, resembling a microscopic view of cells or a textured surface. The shapes are interconnected, creating a complex, organic-looking grid.

We've evolved!

PERSPEX®

Inspired by nature - created by Perspex®

The unique Coral effect

Perspex® Coral is the latest exciting evolution from the dynamic Perspex® portfolio.

Inspired by nature, Perspex® Coral echoes the dramatic textures and effects growing in tropical coral reefs.

Created by Perspex®, Coral has a deep, rich, textural 3D effect, giving it a subtle, intriguing appearance.

When illuminated, the unique effect displays a shimmering iridescence.

Change your perspective and it appears to dance and ripple across the surface.

Put all this together and you have Perspex® Coral - an innovative, dramatic and unique product - a true evolution in the world of acrylic.

Evolutionary design

What makes Perspex® Coral so special is the remarkable and inspiring new effect, combined with the excellent performance properties that are inherent in the Perspex® range.

It's a unique material with a unique appearance, where different colours can create entirely different moods.

- Deep and intense colours give a rich luxurious feel.
- Light and delicate shades create a shimmering ethereal quality.
- Bright and vibrant colours suggest a youthful energy.

All with a distinctive metallic lustre that adds a modern twist to a natural look.

The beauty of Coral is that you can create an exclusive style that is entirely your own.

Tailored solutions

Perspex® Coral is the ultimate expression in customised solutions.

As Perspex® Coral colours are made to match our customers' personal specifications, our colour specialists can create individual bespoke colours.

Whether it's completely new shades to inspire, or colours that complement existing requirements, we can make your vision a reality.

Combine the unique Perspex® Coral effect with beautifully crafted colours and you have a high performance material that is perfect for a multitude of applications.

Extraordinary style

With Perspex® Coral you can:

- Add an exclusive look to retail interiors.
- Give style and substance to architectural installations.
- Create colour and individuality in statement furniture pieces...

It is the perfect material to inspire designers and architects to create something that is individual, special and truly unique.
