**PERSPEX® FROST**

...Frost shapes  
up to be a  
real winner!

Perspex® Frost has been a real crowd pleaser since it was originally launched in a range of subtle Pastel colours. A couple of years later the heat was turned up with the addition of Hot Frost - a range of warm and exciting colours to give designers of internal and external POS and signs even more colours to choose from.

Now we have added even more choice to the Perspex® Frost range with the development of two new colour collections - Urban and Vivid.

Perspex® Frost - the winning line-up:

- ⬡ **Vivid** - Cutting edge modern colours: creative and cosmopolitan
- △ **Urban** - Cool, contemporary urban chic, a collection for a sophisticated loft lifestyle
- **Hot** - Make a strong and confident statement with these dramatic tones
- **Pastel** - Timeless and elegant, the classic Frost colours retain their allure

# get a creative edge...

NEW Perspex® Frost Vivid for a vibrant, dynamic statement that covers all the angles.

**Perspex® Frost Vivid** - inspired by the very latest colour trends, the Vivid collection is sure to give your designs a creative edge.

Vivid is a selection of today's most popular colours that will inspire today, tomorrow and beyond.

The warm tones of **Burnt Orange**, **Saffron Yellow** and **Perfect Plum** are livened up by **Lime Zest** and **Raspberry Red** with the palette completed by the cool sophistication of **Violet Heather** and the gorgeous **Azure Blue**.

A collection of colours that will give your designs a creative edge today and ensure they stand out from the crowd tomorrow.

# need a different slant..?

NEW Perspex® Frost Urban takes you from shabby chic to city slick.

Add metropolitan chic to the refined look of Perspex® Frost and you get these Urban shades - **Midnight Black**, **Moonlight White**, **Sandstone Brown**, **Earth Brown**, **Stone Grey** and **Slate Grey**.

The essence of the city is captured by stark monotones of black and white, softened by gentler greys and balanced by warm browns.

Whether enjoying a night on the town, indulging in retail therapy or relaxing in the park, the city comes alive in true Perspex® Frost style. Versatile and sophisticated, these city slickers stand up to everything that Urban life can throw at them.

# think out of the box...

Perspex® Hot Frost  
- can you take the heat?

There is hot and there is **Hot Frost** - the confident and vivacious colours that really raise the temperature. These bold colours are a great match for the confidence that designers and architects show in Perspex®.

The spicy tones of **Citrus Yellow**, **Mandarin Orange**, **Chilli Red**, **Sapphire Blue** and the new **Jade Green** brilliantly show off the fiery colour potential of Perspex® Frost.

A collection that shows real outside-the-box thinking:  
Perspex® Frost is truly Hot stuff!

# the all round solution...

Use Perspex® Frost Pastels and you'll always put your competition in the shade.

The ever popular **Frost Pastel** colours are the Perspex® equivalent of a fine Champagne: a firm favourite, exceptional taste and perfect for any occasion!
